SINCLAIR THE VANDAL

Bill is a self taught artist whose technique, style and materials translate his experience in the graffiti culture of the 80's and 90's of New York City to painting on canvas. His intuitive nature and control of choice media coupled with his inspiration and interest in experimentaton give his work intensity and complexity that blur the lines between its elevated status as "a painting and its roots as urban "street art" As he has transited into the traditonal ideas of "Abstract and Fine Art" his asymmetrical approach to art making is surely notable. When asked the first time about his media, he responded with a casual Shrug, "Spray Paint."

Bill was born and raised in New York. He, his wife and their children moved to Punta Gorda Florida in 2000. Although, not academically trained as an artist, he is always using “painting as an outlet, Bill’s creative energy and expression has always been and continues to be as strong part of his personality. His professional career spans non – art related jobs including 12 years as a recording engineer, A&R rep and producer for a few major record labels. He also worked as a senior leader with several communication companies. He Likes Craf beer, baseball, vintage cars and listening to many genres of music. Bill often explores psychic mediumship, spiritualism and meditation.
